GC8W14

Air Tank

1 - 12 gallon available
Most in stock, call for details

AIRTANKS

Control 4 Valve

Designed to control two bags individually, or can be used to control the front & back individually on your vehicle.

500 GC4W14

350 Xtreme Valve

Higher pressures, full range of sizes and attractively priced.

3/8" **AR-GC35038**

1/2" **AR-GC35012**

Gauge Panel

Dual Gauge Panel with Switches

2850 GPD4SPL

450 Xtreme Valve

High Flow, 450 psi valves. Long life & great performance with helium or nitrogen.

3/8" **AR-GC45038**

1/2" **AR-GC45012**

Why are Xtreme Valves faster than other valves?
Our 250 and 450 valves have large orifices that allow more compressed air or other gas to flow to the bags. 800 psi valve allows high pressure and high flow for the fastest flow to the bags.
